

Sweden Reflection

The curriculum was very engaging and had a perfect balance of classes, company visits, and historic sightseeing and tours which did a great job of introducing us to Sweden and all its vibrant culture. We were housed in a beautiful lush area full of trees and locals just 20 minutes north of downtown Stockholm via bus.

Beyond the curriculum, I had countless enriching interactions and experiences that broadened my perspective. I befriended locals who showed me the city, attended exciting concerts in exotic places, and even got a chance to DJ at a rooftop bar in the heart of downtown Norrmalm, where I met various artists and wonderful people who made sure I'd have a home if I ever returned to Sweden.
